It would be difficult indeed to imagine a more valuable or a more complete guide for the cultivator of a dahlia or for the person who aspires to have a dahlia garden some day.

Just think of the time and money wasted every year (to say nothing of the sad disappointments) on dahlias that, because of improper planting and care, never materialize.

***This is the result of following the Derring-Do Dahlia Guide***

# This Splendid Guide Tells You Everything You Should Know About Dahlias

**H**ERE at last is a Guide that gives not only the complete romance about dahlias, but also the practical side as well. For many years there have been dahlia books available but the majority have proven cumbersome for the average lover, or else their scope has been far too limited. But here are definite, time-tested instructions that anyone can understand for the cultivation and care of **every** type of dahlia. It tells you when and how to start the seeds, whether indoors or out, when to set out plants, how to transplant, cultivate and water, how to care for plants, and the best kinds of soil for them—these are only a few of the essential details covered.

Just as much importance is laid on the artistic side of dahlia planting—whether you want dainty flowers or showy flowers, whether you want them for outdoor display or for cutting, for hedges, grouping massing or distant effects.

## UNSOLICITED COMMENT

From Ohio:

“Dear Mr. Dixon:

I am again reading your Dahlia Guide, very interesting. I believe if all our customers could be induced to have a copy, it would be helpful to us all, especially the cuts on how to plant. Plants, it seems, too few understand, they don't get them deep enough.

From Michigan:

“Dear Mr. Dixon:

Another thing you have issued one of the finest books on dahlia growing I have ever seen and I guess I have seen most of them. By that I mean that for Mr. Average Man it just simply cannot be bettered. Just why some of the other growers have not taken it up and issued it from your rights I fail to understand. Surely it would be well worth all the royalty they have to pay. I know if I were in a position to do so I would not hesitate a minute as it gives a service that you and I and others like us have had to experiment and work with, until we secured the results desired.

From Connecticut:

“Dear Friend Dixon:

I have read your very interesting guide thru several times, and find much valuable information in it, in fact it is in a class by itself, among the many that I have received.

Your very truly,  
Wm. J. Rathgeber.”

From New York, 2-3-32.

“Dear Sir:

Two years ago I bought your collection No. 1 and I wish (at this rather late day) to thank you for your generosity in substituting some very fine expensive roots in place of those you could not supply as listed in the group. You were kind enough to substitute Jane Cowl, Saxon Chief, Harry Mayer, and other and in accordance with the slogan of the National Association of Commercial Dahlia Growers I want to say that I received **more** than a “Square Deal.” In view of your very generous treatment toward a casual buyer whom you never saw or heard of before, it is needless to say that I will be glad to tell others to deal with Derring-Do for an honest and “Square Deal.”

Very sincerely yours,  
Otta M. Waeterling,

# INTRODUCTION OF 1934

## "PRINCETONIAN"

(A DAHLIA WORTHY OF THE NAME)

Colvin-Derring-Do

An informal Decorative Dahlia with petals blended light-orange-yellow and coral-pink that twist and curl from an ideal center. A flower 8-11 inches (and without forcing) on a stem and neck that is perfection beyond improvement.

This dahlia has:—Colr, size color-stability, stem, neck, large-leaf, good bloomer, good root maker, good propagator and not "tricky" to grow. In short a grand dahlia without "Ballyhoo."

**NOTE:** This is the seedling that caused the crowd to gather and try to buy at the N. Y. Show in 1932, but limited stock prevented its sale. It's regrettable that no picture was taken of the 50 bloom display of it in the Brooklyn Show last October. Suffice to state that they were like the one checked (✓) in the display-cut of the 1933 folder.

Plants \$3.75

Roots \$10.00
